**"Should be your first experience of Wellington**

This was a jam-packed tour that highlighted all the great things to do and see in Wellington. Would recommend to do this walk when you first get to Wellington just to familiarise yourself. Our guide was very knowledgeable and entertaining. Highly recommended!"

# Experience Wellington's history and culture, one step at a time

## "Hidden gems!

We arranged a walking tour with Walk Wellington for our day in port on a cruise. Our guide took us to a few real hidden gems that we wouldn't have found by ourselves such as the Supreme Court, surely the most beautiful courtroom in the world. Great value for money and enjoyed by the entire group, this tour made Wellington one of our best stops on the trip".

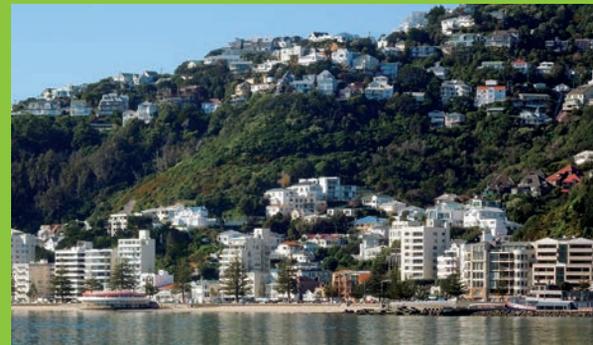

## "Wonderful Day in Wellington

We do these types of walks all over the world, and found the Wellington walk to be both informative and enjoyable. It gave us a good understanding of the history of Wellington as well as a good idea of what we wanted to do while we were in Wellington. I'd highly recommend this for others visiting Wellington".

## "Value for Money

I discovered the walking tour this morning because of the green brochure I found in my hotel.... what a fortunate thing I did. Our guide did a terrific job and I thoroughly enjoyed myself. I have not spent a better \$20 in all of NZ".
